

Hand-Held
Metal Detector

B2scan MS1000

B2scan MS1000 – is an advanced hand-held metal detector designed to ensure safety in public places.

The main scope of application – searching and detection of prohibited metal objects, ferrous and non-ferrous metals.

Strong noise immunity, high sensitivity. It is possible to connect headphones.

Automatic sleep mode and shutdown. Pressing any button or close location to metal automatically returns to the working state.

A dynamic beep changes the pitch depending on the mass of the object.

Technical parameters:

- Overall dimensions: 360 (l) x 82,5 (w) x 42,5 (h) mm
- Weight: 270 g
- Charger operating voltage: 5-15 V
- Operating current: 6 mA
- Power: two AA batteries
- Operating voltage: 3 V

Object detection distance:

- PM type gun: 200 mm
- Steel plate 100*100*1 mm: 200 mm
- Knife: 150 mm
- Clip: 50 mm

Hand-Held Metal Detector

B2scan MS2000

B2scan MS2000 – is an advanced hand-held metal detector designed to ensure safety in public places.

The main scope of application is the search and detection of prohibited metal objects, ferrous and non-ferrous metals.

Strong noise immunity, high sensitivity. Smooth adjustment of sensitivity.

There is a silent mode of operation. Duration of work on one battery is up to 200 hours.

A dynamic beep changes the pitch depending on the mass of the object.

Technical parameters:

- Overall dimensions: 410 (l) × 80 (w) × 42 (h) mm
- Weight: 400 gr
- Operating voltage: 9 V
- Operating current: 5 mA
- Power: 6F22 battery2

Object detection distance:

- PM type gun: 200 mm
- Steel plate: 150 mm
- Knife: 150 mm
- Clip: 50 mm
